General Lokomsky, one of Korniloff's right-hand men has turned down Ker ensky's offer to succeed Korniloff, So he too, stigmatized as a traitor, is or-

TO FIX COAL PRICE THIS MONTH

Fuel Dictator Will Set Retail Price for Every Community.

Washington -- Retail coal prices will be announced for every city and community in the country before the end of the month, Dr. H. A. Garfield, fuel administrator, announced. They will be-fixed on the recommendation of local committees, to be named by state

fuel administrators.
"It is obvious," Dr. Garneld said, that the prices will vary considerably between localities and between city and country districts. Care will be taken to include all items which ought to be included, for there is no disposition to deprive the local dealer of his fair measure of profit. It may be necessary to make the prices tentative as in the case of prices fixed at the

mines." In the naming of local committees coal men will be excluded. Dr. Garfield said, to save them from embarrass ment that might arise if they were called on to pass judgment on others in their own line of business.

NEW RUSS REVOLT MENACES FREEDOM

KORNILOFF, ARMY CHIEF, FIRED BY KERENSKY, REFUSES TO RESIGN COMMAND.

PETROGRAD IN STATE OF WAR

Revolt Threatens to Undermine the Armies, As Cossacks Are Loyal to Korniloff.

Petrograd-New chaos engulis Russia. On its crest rides civil war.

General Korniloff, caught in a plot to overthrow Kerensky and appoint himself military dictator, has been ousted as commander in chief. En-trenched at army headquarters, surrounded by loyal lieutenants, backed by his devoted Cossacks at the front and the powerful Prince Lvoff-Miliukoff party at home, he refuses to resign and defies Kerensky to force him

General Lokomsky, one of Kornilon's right-hand men has turned down Ker ensky's offer to succeed Korniloff. So he too, stigmatized as a traitor, is ordered to resign. He too is defiant.

Petrograd, in the grip of famine and panic, has been declared by Kerensky to be in a state of war. This includes the whole district of the capital.

Facing open rebellion, this time by part of the army, Kerensky, with the consent of the provisional government, has assumed the absolute powers of a exar. He announces he will not yield one lota to the counter-revolutionists but will "cut at the roots" of the Kornilog movement.

What effect the deposition of Korniloff will have on the army is as yet incalculable. Certain it is, that the Cossacks, the only part of Russia's army never affected by the wave of cowardice and treachery, idolize him. He is himself of Cossack blood.

As long as Korniloff refuses to re linguish the chief command - and thus far no way of forcing him out seems practicable-a-fatal dual regime threatens to undermine the armies at a moment when Hindenburg is count ed on to strike his master blow

A short harvest period requires the combined forces of the two countries in team work, such as the soldier boys in France and Flanders are demonstrating.
